TAKE CONTROL

NETWORK ROOFTOP OR SPLIT SYSTEMS FROM ANYWHERE

INTERNET ACCESS to system information and TOTAL building control

right in the palm of your hand

Remotely control multiple stand-alone RTU's or splits, with our App and your wireless device FROM ANYWHERE

GEN UC

GEN UC (Unit Control) provides networked control and remote internet access to 1 or 100's of RTU or split systems from your mobile device or phone, **from ANYWHERE.**

GEN UC fills a large and profitable void between programmable thermostats and expensive and complex energy management systems.

With the **GEN UC** you'll communicate on – site or remotely with gas/electric or heat pump units. Monitor RA / SA temperatures from each unit along with Humidity readings. Additionally control generic loads, signage, parking lot lights or exhaust fans and scheduling remotely. Alarming and other features are included at no additional charge with cloud base or LAN control.

GEN UC – Complete building control from your wireless device
