

GEN V

- Manage home comfort from a single point with a simple easy to use interface
- Enhance your customer's comfort experience with our innovative EzTouchX thermostats
- Comfortably control up to 10 zones from only one zone panel

A Revolutionary Home Comfort System

GEN V Controller

2 Heat/2 Cool, works with G/E, HP, Ducted Mini Splits with modular air handler, VRF systems

EzTouchV HUB Stat

Manage the entire system from a single point, no need to go to each stat

EzTouchX Zone Stat

Elegant design and high tech performance that looks great in any home

Homeowners can manage the entire system from one central HUB, no internet connection required

Control one zoned unit (VRF or constant velocity) with up to 10 zone dampers per unit (RTU, splits, or VRF systems)

Color LCD touchscreens and intuitive menus make system changes effortless

4 Daily schedules plus Vacation/Holiday scheduling can be set individually or globally

Prioritize stats from the HUB with 0,1,2, or 3 votes

Simple daisy chain wiring from the GEN V stat to stat, with no home run wiring required

No computer required for setup or management

On board diagnostics streamlines troubleshooting

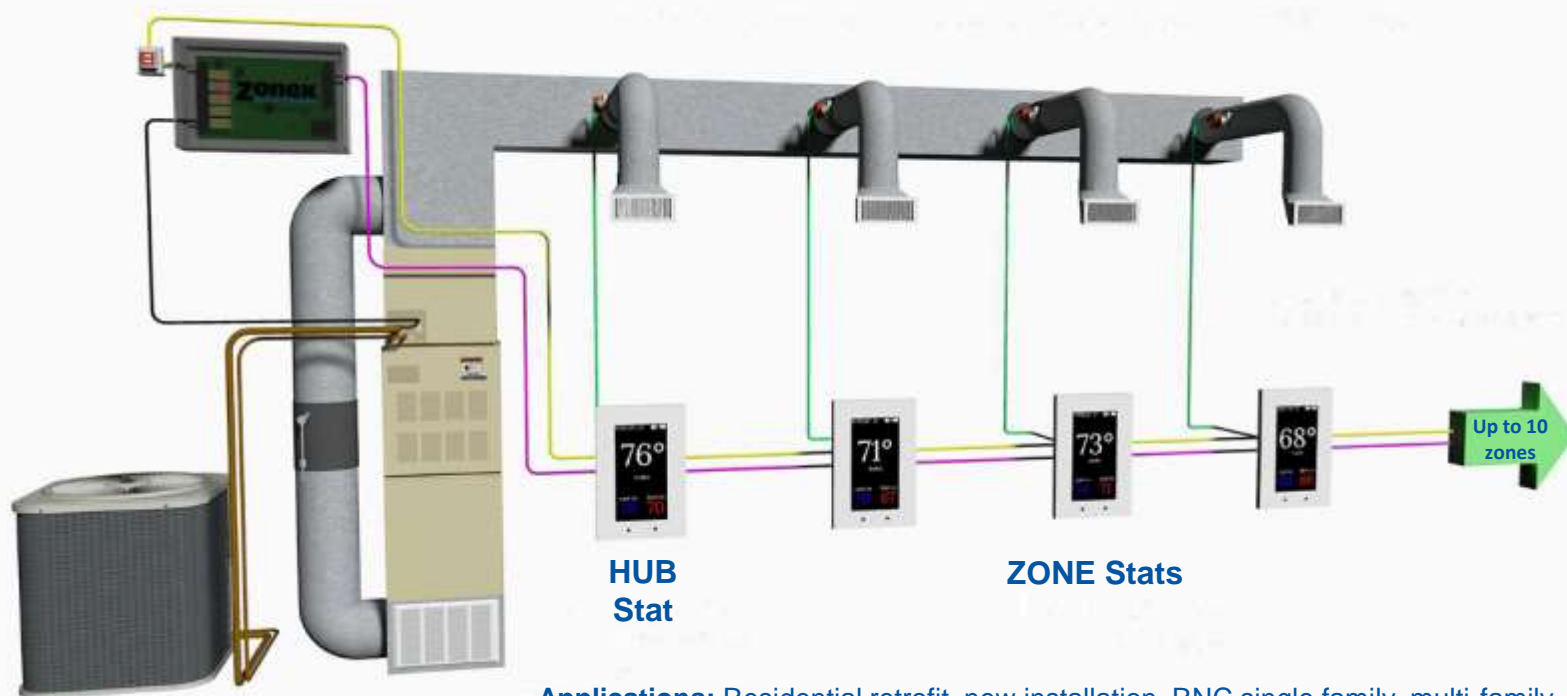

No additional "add on" boards to expand the system

Use 2-position dampers to keep costs low, win more jobs

GEN V

Perfect Temperature Control At The Tap of A Finger

Applications: Residential retrofit, new installation, RNC single family, multi-family, mid-rise, high-rise, apartments. Assisted living/elder care facilities. Student housing.
