

WOW!

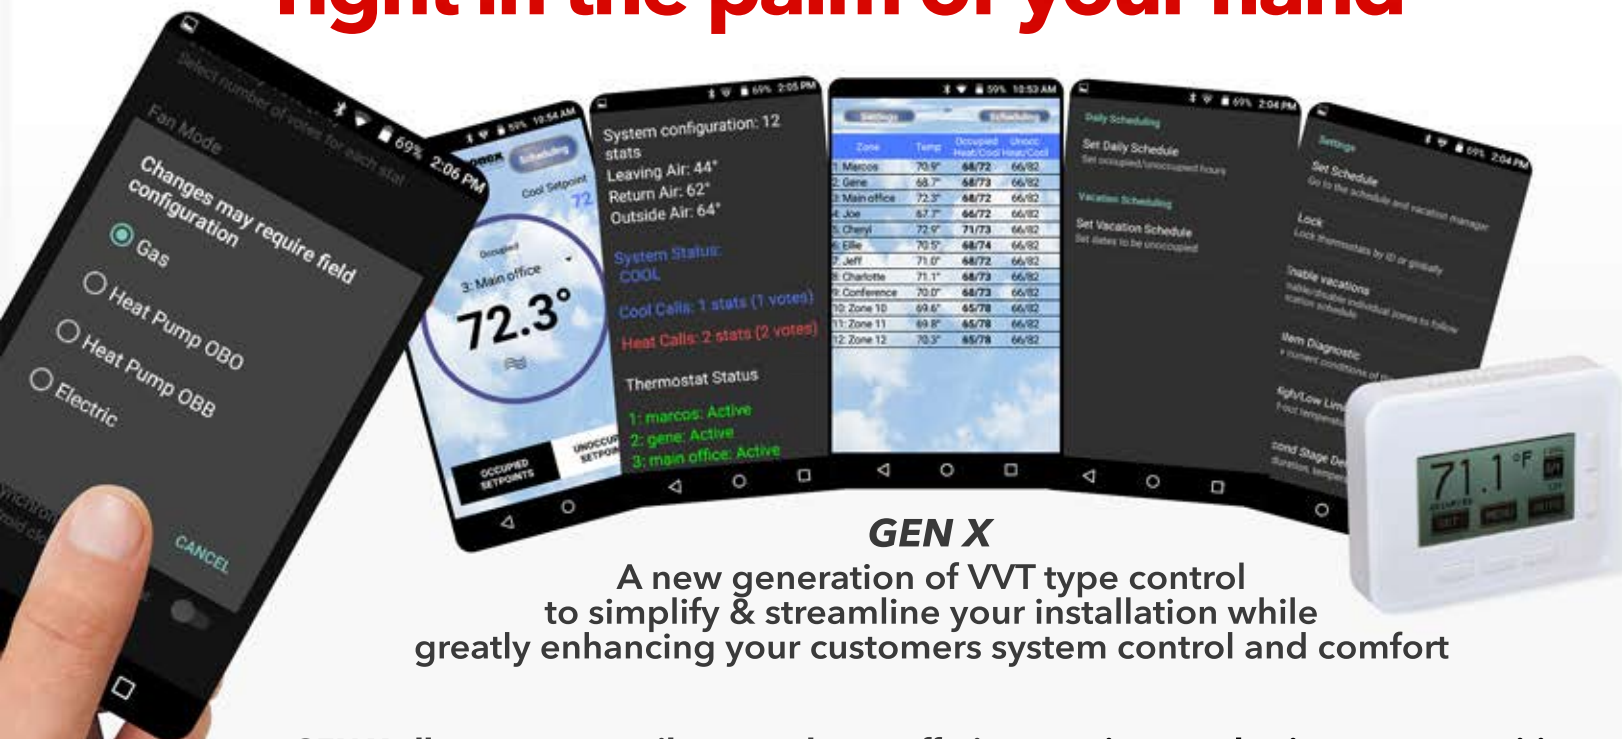

Remotely control VVT systems with our App and your wireless device...**from ANYWHERE**

Wi-Fi App Based Control
to support 2-20
modulating dampers per
RTU or Split Systems
AT HALF THE PRICE

GEN X

UNIQUE ACCESS to system information and **TOTAL building control**
right in the palm of your hand

GEN X

A new generation of VVT type control
to simplify & streamline your installation while
greatly enhancing your customers system control and comfort

GEN X allows you to easily expand your offering creating new business opportunities

EASIEST INSTALLATION YET

1-24V 40 VA transformer powers all dampers in the system. You simply daisy chain 24V and 2 wire unshielded twisted pair communications loop from damper to damper with no home runs.

WOW - With Out Wires

Quoting labor on your controls jobs has never been easier without thermostat wiring using our new SIMPLIFIED VVT controls and mobile cloud-based app
