

REMOTE SENSOR

SUBMITTAL

RMTSEN *Remote Sensor*

DESCRIPTION

The Zonex Systems remote sensor (RMTSEN) is used in applications that require the thermostat to be installed in a location remote from the space which is to be controlled.

The remote sensor is offered on all Zonex thermostats. The current thermostats include: WSTATX-RS, SASTAT-RS, MODSTATII-RS and ZSTAT-RS.

For remote sensor application, the Zonex thermostat must be ordered with RS added to the thermostat model number as indicated above.

TECHNICAL DATA

Dimensions: 2.75" W x 4.5" H x 15/16" D

Color: White

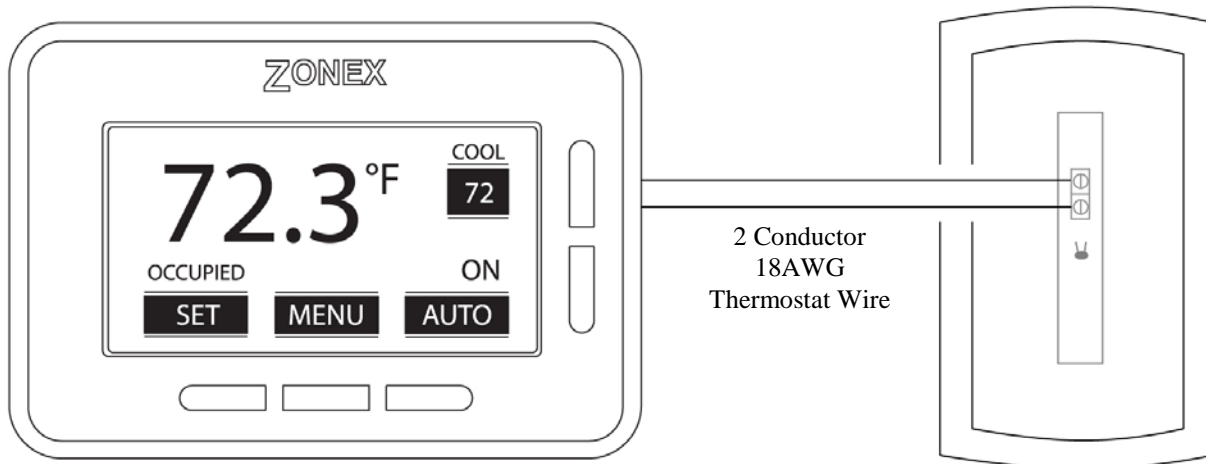

Mounting: Base with terminal strip and removable
Face cover
Interior installation only

Electrical:

2-wire terminal strip

Platinum Thermistor

Wire: 2 conductor 18 gauge thermostat wire

Rev 10/26/17
