

TAKE CONTROL

Remotely access multiple VVT or Zoned systems along with stand-alone equipment **with our App and your wireless device...from ANYWHERE**

GEN X allows you to easily expand your business opportunities at **HALF THE PRICE** of more complex and costly systems

UNIQUE ACCESS to system information and **TOTAL building control**
right in the palm of your hand

GEN X

A new generation of control
to simplify & streamline your installation while
greatly enhancing your customers system control and comfort

AMAZING SYSTEM CONTROL, SPEED AND OPERATION

EASIEST INSTALLATION YET

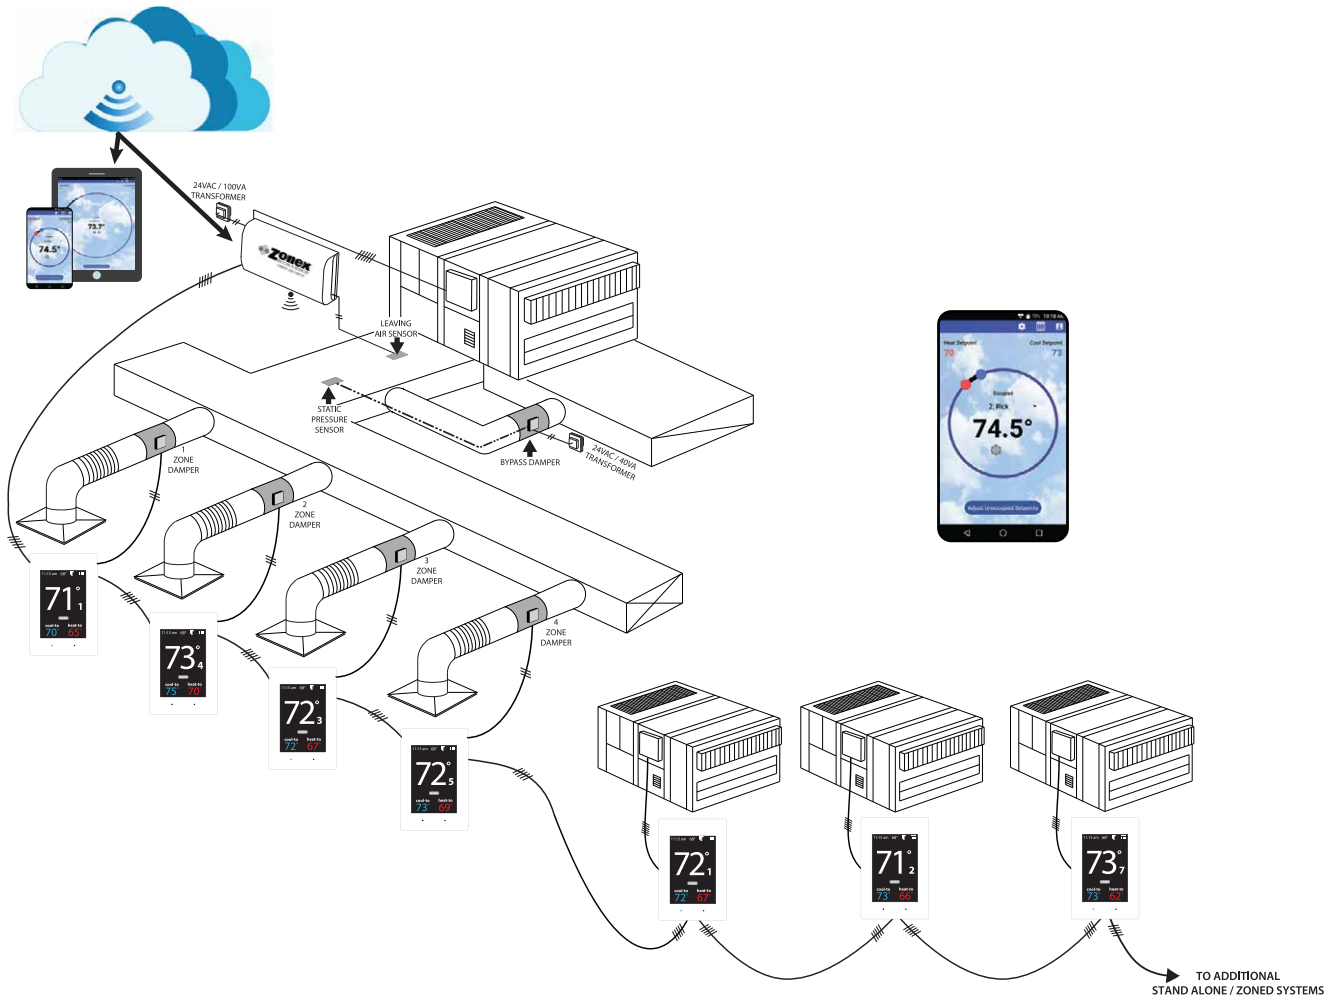

1-24V 100VA transformer powers all dampers in the system. You simply daisy chain 24V and 2 wire twisted pair communications loop from damper to damper with no home runs
