

Fault Detection & Diagnostics (FDD) and Automated Demand Response (ADR)

GEN X & GEN V are the industry's most affordable, easy to install and operate commercial zoning systems AND now include the ability to connect to devices that comply with FDD where Fault Detection & Diagnostics reporting and Automated Demand Response is required.

FDD & ADR are now available - NO additional cost or software required

- Meet Title 24 requirements for FDD reporting
- Easy integration: only requires a 24 VAC output to trigger
- Plug and play, no special configuration required
- Receive e-mail or visual alerts for FDD reporting
- Compatible with most HVAC manufacturers
