

# REMOTE SENSOR

## SUBMITTAL

## **RMTSEN** *Remote Sensor*

### DESCRIPTION

The Zonex Systems remote sensor (RMTSEN) is used in applications that require the thermostat to be installed in a location remote from the space which is to be controlled.

The remote sensor is offered on all Zonex thermostats. The current thermostats include: DIGICOMRS, DIGIHPRS, ModStatRS, MODS2RS and SAMOD IIRS.

For remote sensor application, the Zonex thermostat must be ordered with RS added to the thermostat model number as indicated above.

### TECHNICAL DATA

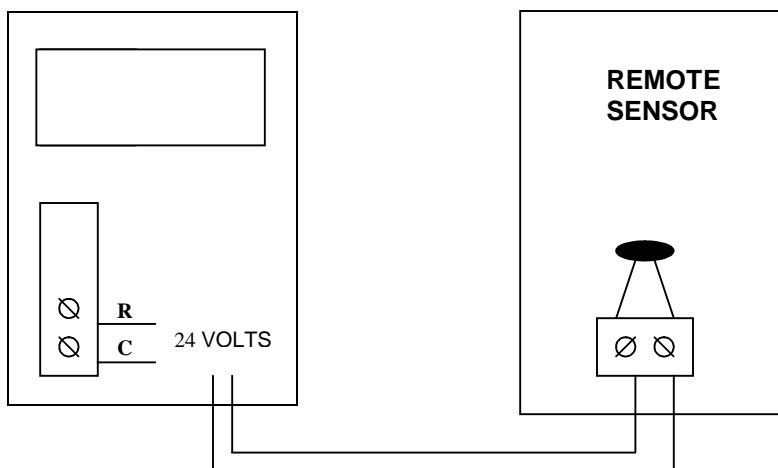

**Dimensions:** 2.75" W x 4.5" H x 15/16" D

**Color:** White

**Mounting:** Base with terminal strip and removable Face cover  
Interior installation only

**Electrical:**

2-wire terminal strip  
Platinum Thermistor  
Wire: 2 conductor 18 gauge thermostat wire

Sensor wire  
2 Conductor 18 AWG Thermostat Wire

Rev 2/5/10
