

Zonex VRF-VAV

PROVIDING THE BENEFITS OF VAV WITH THE EFFICIENCY OF VRF TECHNOLOGY

A NEW CONCEPT IN AIR DELIVERY

Reduce equipment costs by replacing indoor units with Smart Air Valves (SAV)

Ordinary dampers don't work with VRF, Smart Air Valves do, they know exactly how much air to deliver to each zone

AN INNOVATIVE PRODUCT

bringing VAV to VRF systems using pressure independent, self-balancing Smart Air Valves, to enhance VRF operation

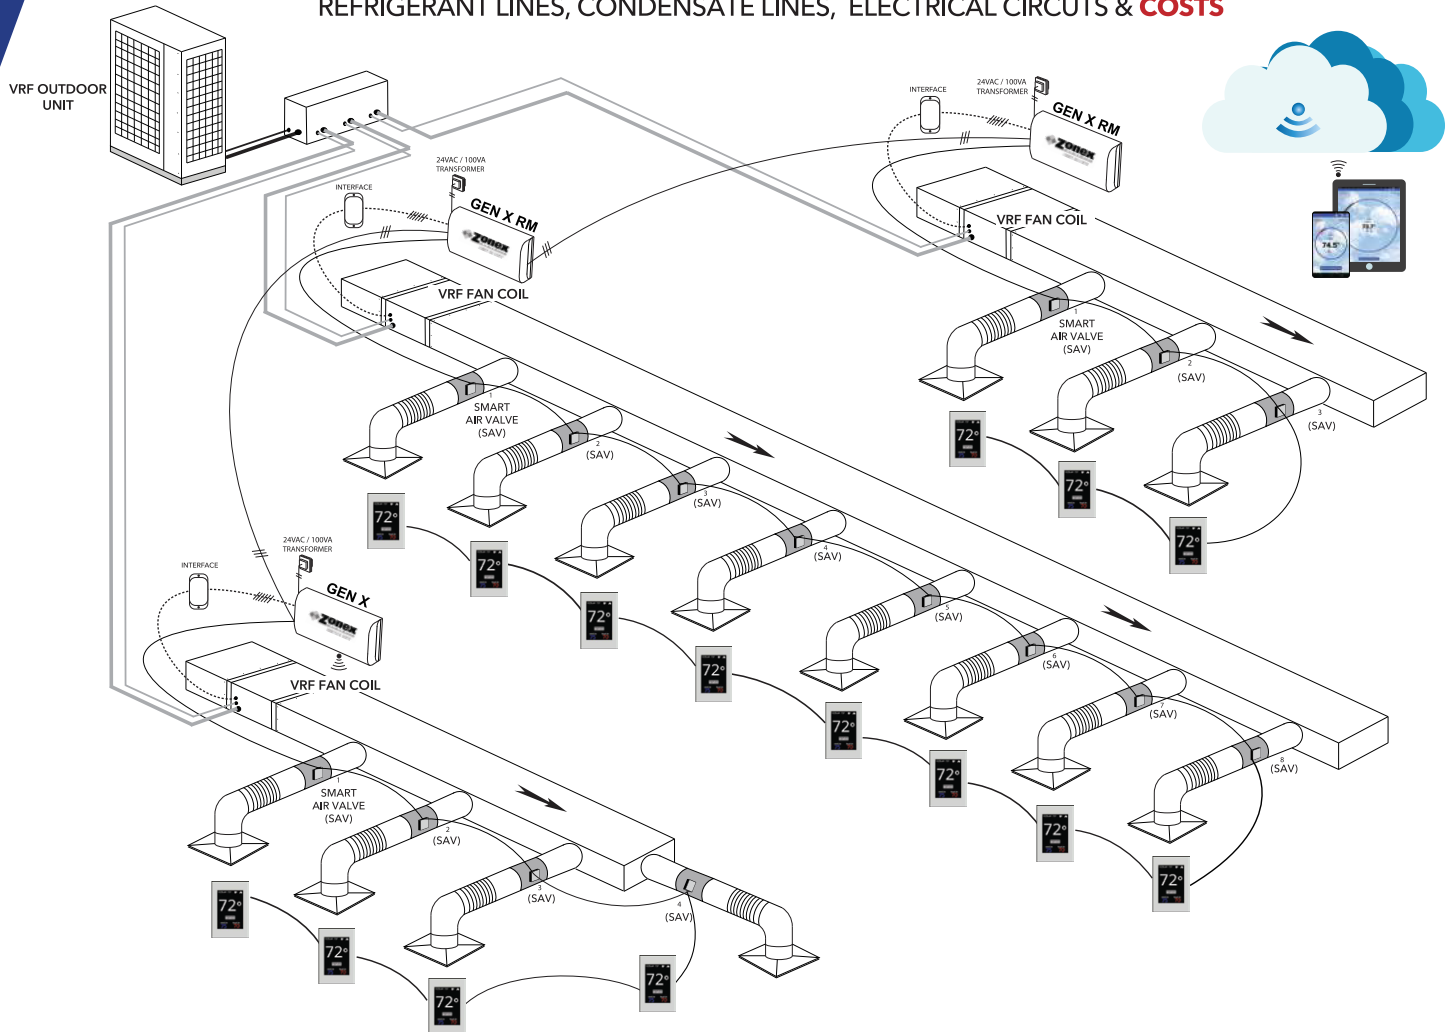

ELIMINATE MULTIPLE INDOOR UNITS,

refrigerant lines, and reduce overall installation costs to simplify VRF installations

GET A QUICK QUOTE

VRF-VAV

NETWORK and **REMOTELY ACCESS FAN COILS** and REDUCE THE NUMBER OF INDOOR UNITS ,
REFRIGERANT LINES, CONDENSATE LINES, ELECTRICAL CIRCUITS & **COSTS**

**SMART AIR VALVES INTELLIGENTLY OPERATE LIKE AN INDOOR UNIT
WITHOUT AFFECTING VRF OPERATION IN ANYWAY**

Control up to 20 Smart Air Valves per fan coil!!!

VRF-VAV Simplifies & Streamlines VRF Installation & Costs

- Reduce the Number of Fan Coils
- Reduce Power Consumption
- Reduce Number of Condensate Lines
- Reduce Long Refrigerant Pipe Runs
- Reduce Electrical Installation Costs
- Reduce Potential Refrigerant Leaks
- Simplify ASHRAE 15 & 34 Requirements
- Reduce Ongoing Maintenance
